Warfare, Raiding and Defence in Early Medieval Britain, by Erik Grigg, Marlborough: Robert Hale, 2018, 224 pp., £25; ISBN 978 0 7198 26788. A sophisticated analysis of defence in early-medieval Britain that focuses on the widespread building of early-modern dykes in order to thwart the raids that were an incessant feature in conflict in this period.

Warfare, Raiding and Defence in Early Medieval Britain ...

Warfare, Raiding and Defence in Early Medieval Britain is an examination of warfare in the period AD400-850, often called the Dark Ages, which is roughly the period between the end of Roman rule and the arrival of large Viking armies. It uses written sources, archaeological evidence and surviving features in the landscape to analyse the nature of warfare in those days, paying particular attention to the large defensive earthworks typical of the period.

The Middle Ages saw the development of new modes of warfare encompassing both pitched battles and siege warfare. Then as now the western world was engaged in an arms race. New weapons technology prompted new defensive technologies, for example the introduction of cross-bows led quickly to the adoption of plate armour rather than chain mail.

Raid defense . Consider building forts at border counties as raiding armies will be forced to siege the fort first, allowing you to gather levies before the county's more valuable holdings are threatened. If raiding armies are threatened, they will usually board ships and look for another realm to pillage. Most defenders find this sufficient.
